

# What's next for Global Governance?

## ImPACT Coalitions' Recommendations for the Summit of the Future

### Side event at the Summit of the Future Action Days

*Final confirmation pending*

The UN's [Summit of the Future](#) in New York on 22/23 September 2024 will adopt a PACT for the Future which includes a chapter on the transformation of global governance. This side event during the UN's [Action Days](#) ahead of the Summit is a space to learn about and discuss proposals in this field put forward by a number of ImPACT Coalitions to build on the outcomes of the Summit and continue fulfilling a vision for renewed global governance in the coming years.

How to build on the seeds planted in the PACT to continue addressing the planetary emergency, inequitable distribution of power, lack of inclusion, continued violations of peace and disarmament goals, and gaps in accountability and the rule of law? Where is a need to go further? The event will address future pathways to bring about a more effective, accountable and inclusive global governance architecture.
